

JP INDUSTRIAS MECÁNICAS, S.L. maintains as a fundamental basis of its business activity the principle that, its permanence in the market lies in expanding its client portfolio and loyalty to current customers.

And, to put this philosophy into practice, establishes as its Quality and Environment Policy the following:

The company JP INDUSTRIAS MECÁNICAS in its activity of Development and manufacture of mechanical components for the automotive industry, and with more than 50 years of experience in the sector, works to achieve the following objectives:

- *Attend whenever technically and economically possible the suggestions received from the Clients.*
- *Consider the Continuous Improvement of Quality and Environment as a permanent goal, that increases the satisfaction of our Clients and improves our environmental performance.*
- *Work at all times within the legality applicable to the Company, including applicable environmental legal requirements and other requirements that could be subscribed, and of the strictest professional ethics.*
- *Provide appropriate training to our staff, and encourage them to develop good practices in quality and environmental issues.*
- *Commitment to the protection of the environment, the prevention of pollution, saving in the consumption of resources and, with the generation of waste from our activity.*
- *Systematize processes, services and performance methodologies to guarantee a high level of quality of our work and products with an efficient economic expense.*

To achieve these commitments, the Managing Director has decided to implement an integrated quality and environmental management system, in accordance with the standards UNE-EN-ISO 9001: 2015 and UNE-EN-ISO 14001: 2015, the basic document of which is the Management Manual.

This Quality and Environment Policy serves as a framework for the establishment of the Annual Quality and Environment Objectives and for analysing the degree of compliance with them.

In addition, the Quality and Environment Policy is reviewed annually to ensure that it is adapted to the company's dynamics.

This Quality and Environmental Policy must be known to all Staff and will therefore be displayed on site.
